serhio@DESKTOP-QKU9C7M:~$ sed --h
Usage: sed [OPTION]... {script-only-if-no-other-script} [input-file]...

  -n, --quiet, --silent
                        suppress automatic printing of pattern space
      --debug
                        annotate program execution
  -e script, --expression=script
                        add the script to the commands to be executed
  -f script-file, --file=script-file
                        add the contents of script-file to the commands to be executed
  --follow-symlinks
                        follow symlinks when processing in place
  -i[SUFFIX], --in-place[=SUFFIX]
                        edit files in place (makes backup if SUFFIX supplied)
  -l N, --line-length=N
                        specify the desired line-wrap length for the `l' command
  --posix
                        disable all GNU extensions.
  -E, -r, --regexp-extended
                        use extended regular expressions in the script
                        (for portability use POSIX -E).
  -s, --separate
                        consider files as separate rather than as a single,
                        continuous long stream
